## SDI Mill Location Brings Significant Advantages

### Ready to Roll

A flat roll strategy years in the making. SDI is poised to take advantage of the regional steel deficit.

Steel Dynamics has been squarely focused on strategically growing since its founding in 1993. By intentionally expanding into new locations and markets, SDI brings quality products and solutions to customers throughout the United States. Now, SDI is excited to continue this growth initiative with the construction of the first flat roll steel mill in the Southwest U.S. Strategically located in Sinton, Texas, this new mill will bring many advantages to customers across the region.

### TRANSPORTATION ADVANTAGES

The location in Sinton, near Corpus Christi, provides access to several modes of transportation, which will enable SDI to optimize customer supply chains and logistics. The new mill will be in close proximity to some of the largest steel markets in North America with the ability to service major markets, including much of Texas and Mexico, by truck. The mill will also have ready access to three Class 1 railroads (UP, BNSF and KCS) and a deep-water port on the inland waterway system.

### USMCA ADVANTAGES

As a USMCA steel producer, SDI will help customers eliminate import restrictions or quotas, as well as potential tariffs and duties. The new mill will also be an outstanding option for “Buy American” requirements. Its optimum location will also support the regional content requirements of the USMCA agreement.

Construction of the Southwest mill is already underway, with operations set to begin in mid-2021. Look for ongoing updates on the mill, its capabilities, and advantages.

In the meantime, we at **Ace Steel Supply** thank you for your partnership and look forward to growing to better serve you, our customers. We are here to support your flat rolled, coil and specialty needs. See the back of our newsletter for our **5% Discount** promotion. Thanks for your business, we appreciate it. Remain safe & healthy.

### **Summertime Beaches That Are a Must-See**

Summer is upon us, virus and all. So why not go somewhere that is relaxing and beautiful. The beach is a very inviting place, you just have to get there. You can pick what is perfect for you: the waves, the sand, the level of seclusion..... your choice! Here are some of the most breath-taking beaches in the continental U.S. and Hawaii.

#### **Poipu Beach, Kauai, Hawaii**

This beach is located on the southern shore of Kauai. Along with stunning views, you can do a multitude of activities. Surfing, snorkeling, windsurfing, boogie boarding and of course sunbathing.

#### **Clearwater Beach, Florida**

These gorgeous white sand beaches stretch 2.5 miles along the Gulf of Mexico. The hub of entertainment is Pier 60. You can rent fishing gear, cabanas, umbrella chairs, and there is a playground for the kids.

#### **Harris Beach, Oregon**

Harris Beach is known for its interesting rock formations and tide pools. You can see abundant wildlife such as harbor seals, California sea lions, and migrating gray whales. If you are a camper, there are plenty of campgrounds around to stay at.

#### **Carmel Beach, Carmel-by-the-Sea, California**

This popular surfing spot has white sand beaches. It has views of Pebble Beach to the north. Beach fires are permitted and you can let your dog off the leash to let them play in the cool, crystal water. Pack and picnic and a bottle of wine and enjoy the sunsets.

#### **Ocean Beach Park, New London, Connecticut**

Only a half mile long, Ocean Beach Park, located along the boardwalk has picnic areas, playground, snack bar, mini golf and more. There is a weekly beach blanket movie night and Ocean Beach Park music series every summer.

#### **South Padre Island, Texas**

Of course, I couldn't forget Texas. South Padre beaches are part of the resort town on south Texas' barrier island. Everything is bigger in Texas, there are 34 miles of "beach" to enjoy. The beaches have re-opened now with restrictions of course. So if a pretty, near by beach is what you seek, SPI won't disappoint.

## CHANCES DOG RESCUE AND RELOCATION TRANSPORTS ON THE ROAD AGAIN

Thursday, May 28 was our first transport departure since mid-March, and everyone at Chances Dog Rescue and Relocation was overjoyed to be able to get some lucky southern dogs on the road north to their forever families.

64 dogs from 10 of our Houston rescue partners met in Tomball. Our incredible vet, Dr. Chellgren, was there to check everyone out and provide health certificates and a snuggle or two before it was time to load up.

Conscious of maintaining a safe social distance, fosters were patient while waiting in their cars with pups during check in and exams.

Everyone loaded up easily and hit the road at 7pm destined for new lives full of love and new adventures. The pups will arrive Saturday morning, and begin their mandatory 48-hour quarantine with one of our five partners. Monday morning, they will see the vet for a quick once over, and then it is time to meet their forever families. About half of the dogs already have adopters arranged, and the other half will be adopted before anyone can blink.

Shelters in Massachusetts have been closed due to COVID since mid-March. There are essentially no unwanted or stray dogs in the state – solid spay and neuter laws since the 1970s is likely the biggest reason for this - so there are hundreds of families anxiously waiting the arrival of dogs of all shapes, sizes and ages. We are thrilled that we are the first transport to reach our partners after their reopening, and we cannot wait to get to work on our second!

Keep an eye out of our Facebook page ([www.facebook.com/chancesrescue](http://www.facebook.com/chancesrescue)) for adorable adoption updates and photos.

Barbara Pennington
